BOSTON

Office Manager

The ideal candidate for this role must be highly organized, able to multi-task, and possess a positive, flexible attitude and professional demeanor, while managing office operations in a fast-paced professional environment. Reporting to the Managing Principal, the Office Manager is responsible for ensuring the efficient operation of the Boston office including directing and coordinating office services, administrative functions, and related activities.

Job Responsibilities:

- Facilities management to include responsibility for day-to-day operations including maintenance, purchasing and office events
- Manage the reception/front desk function; greet and welcome incoming guests and visitors
- Assist in planning and executing monthly and quarterly office events as needed
- Serve as administrative assistant to the office leadership: scheduling meetings and calls, travel arrangements and preparation and submission of expense reports
- Liaise with firm-wide departments including Accounting, IT, and Marketing personnel and work collegially with other Office Management counter-parts across the country
- As needed, act as a resource to the Marketing team for proposals, reports, correspondence and presentations
- Communicate effectively and graciously with all levels of personnel across the firm

Key Skills:

- Associates Degree preferred.
- Minimum 10+ years' experience in overseeing comprehensive administrative office functions and demonstrated experience in executing office standards.
- Excellent interpersonal communication skills including the ability to express ideas concisely and clearly to all levels within the company.
- Ability to establish and maintain effective working relationships with others, and coordinate and/or supervise diverse administrative functions.
- Strong follow-through and prioritization skills, the ability to function in an evolving environment while demonstrating initiative, self-motivation and the ability to maintain a strong sense of urgency are essential.
- Microsoft Office – Outlook, Word, Excel, Powerpoint, etc.

CHICAGO

Interior Designer II

We are seeking a collaborative team player who is dedicated, and passionate about design, with strong design process, problem solving, and leadership skills for immediate opportunities as an Interior Designer. This position requires the candidates to work with design teams on Corporate Interiors, Senior Living, and Higher Education projects of varying sizes and complexity from Programming/Pre-Design/Concept through Construction Documents. The approach is Client Centric and user focused and must possess the ability to react to a number of design styles and their methods of delivery.

Job Responsibilities:

- Interior Designer, under supervision, will be responsible for Programming, Planning, Strategy Implementation, Restacking, Phasing, and Test Fits.
- Assist the design team on projects from the Pre-Design Phase through Construction Documents.
- Assist senior staff with preparing programming, analysis, conceptual and schematic design concepts, project layouts and develop designs using Revit or other modeling software.
- Perform design computations, research product specifications, compile project data, phase reports, and other miscellaneous architectural assignments.
- Assist in reviewing proposed designs for compliance with applicable codes.
- Prepare finish material sample boards, physical models and graphic presentations for client approval.
- Assist with preparation of construction drawings and construction detailing for contractors and assist in the construction administration phase.
- Research finishes and furniture for project team.
- Ability to work with a small but multidisciplinary team on a variety of tasks including concept development; finish selection, planning, drawing, detailing and visual presentations.
- Maintain the office resource library by setting up manufacturer representative meetings and keeping the interior design team up to date on new product introductions. Some filing will be required.

Key Skills:

- Master or Bachelor Degree in Architecture, Interior Design or equivalent
- Minimum 3 to 5 years of relevant project experience in Corporate Interiors, Residential, or Hospitality
- Possess a thorough working knowledge of furniture lines and FF&E specification
- Ability to develop, communicate and present design concepts to their team
